INTERN, 05/2024-07/2024
training in machine learning in jovac, Mathura, India

PROJECTS

🚕 Taxi Solutions Project (MERN)

Led development of a MERN-based ride-sharing platform with car rental features. Focused on crafting scalable front-end experiences and backend APIs. Current focus: user behavior analytics, and pricing prediction. Follows clean code and reusable component principles.

Heart Disease Analysis (ML + Python)

Developed a machine learning model to predict heart disease using logistic regression, random forest, and SVM. Focused on data preprocessing, evaluation metrics, and visualization. Contributed to early abstraction of feature engineering into reusable code.

SKILLS

Technical	Professional
* Data analysis	* Effective Analytical Skills
* Machine learning	* Ability to identify and solve problems
* Java with DSA(Beginner level)	* Team Management Skills
* HTML, CSS, JS (Basics)	

EXTRA/CO-CURRICULAR ACTIVITIES

* Coordinated SRIJAN (Cultural Fest, GLA)
* Participated in MAITREE (Sports Fest, GLA)
* Active member of the IEEE Computer Society (College Club)

CERTIFICATES

* Jovac machine learning and data science
* lean six sigma certification
